## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 39-63, drawn to a porous material.

Group II, claim(s) 64-77, drawn to a method for the catalytic conversion of exhaust gases.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common special technical feature which links Groups I and II is an oxidation catalyst capable of catalyzing the oxidation of NO to NO<sub>2</sub> in the presence of oxygen and catalyzing the oxidation of a reducing agent. This special technical feature is anticipated or rendered obvious by any of US 5,665,321 (refer to column 2, lines 10-15 and lines 55-65 and column 3, lines 55-62) or US 5,702,675 (refer to the Abstract and column 2, lines 45-52) or US 6,294,141 (refer to column 1, lines 50-65 and claims 8 and 9). Consequently, the special technical feature which links the claims of Groups I and II does not provide a contribution over the prior art, so unity of invention is lacking.

3. A telephone call was made to Mr. Arnold Krumholz on March 11, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1754

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
